# ADVISING CONTRACT

As **Capstone Adviser**, it is my duty and responsibility as stated in Capstone Guidelines to:

1. Ensure that the project proposed by the students conforms to the standard of the College and has an immediate or potential impact on the research thrust of the university.
2. Guide the Capstone Project of the students in the following tasks while in the proposal stage:
   a) Defining the research problems/objectives in clear specific terms
   b) Building a working bibliography for the research
   c) Identifying variables and formulating a hypothesis if any
   d) Determining research design, population to be studied, research environment, instruments to be used, and the data collection procedures
3. Meet the team regularly (NOTE: the team must fill out the Adviser Consultation Monitoring Sheet) to answer questions and resolve impasses and conflicts.
4. Point out errors in the development of work, in the analysis, or the documentation. The adviser must remind the Proponents/Researchers to do their work properly.
5. Review all deliverables thoroughly at every stage of the Research / Capstone Project to ensure that they meet the department's standards. The adviser may also require his/her Proponents/Researchers to submit Progress Reports regularly.
6. Recommend the Proponents/Researchers for Proposal and Oral Defense. The adviser should not sign the Proposal and the Oral Defense Notice Letter if he/she believes that the Proponents/Researchers are not yet ready for Proposal and Oral Defense, respectively. Thus, if the Proponents/Researchers fail in the Proposal or Oral Defense, it is partially the adviser's fault.
7. Clarify points during the Proposal and Oral Defense.
8. Ensure that all required revisions are incorporated into the appropriate documents and/or software.
9. Keep informed of the schedule of Research / Capstone Project activities, required deliverables, and deadlines.
10. Recommend to the Proposal and Oral Defense panel the nomination of his/her Research / Capstone Project for an award (if any).
11. If, in any case, the adviser fails to perform his or her duty, the capstone project team has the right to choose a new adviser. The provision for the adviser's fee will not be awarded.

**I acknowledge that I have read and understood those mentioned above and swear to abide by the same as an adviser for:**

**Capstone Project Title:** TRAVEX: A Package Booking, Smart Recommendations System, and Customer Management System

**Capstone Advisees:**
